'ALTITUDE' OFFICE BUILDING AWARDED GREEN RATING

Australian airport property specialist group, Gateway Project Partners, is pleased to announce that its office building at Number One Airport Drive, Brisbane Airport, has been awarded a four star rating by the Green Building Council of Australia.

'Altitude' is a demonstration of leading airport office development and design. Providing four levels of A-grade office accommodation, with a market-leading carparking ratio and situated within the masterplanned airport community of Number One Airport Drive, 'Altitude' is an exciting new offering in the Australian airport sector.

Architect Husband + Leith and builder Ray White Constructions have worked with Brisbane Airport Corporation ('BAC') to optimize the building plot orientation and other environmental features that BAC has incorporated into the precinct.
